ARTICLE 2 PARTICIPATION CANCELLATION

2.1 QRSTANDIKE has the right by its judgement to accept an application in writing from an exhibitor for partial or full cancellation of his participation at the exhibition followed by his application of participation. Nevertheless, the exhibitor is still responsible for the payment of his registration right and the valid cancellation charge. The amount to be paid is shown at the table of cancellation charges below. The charges are calculated based on:

-the time by which QRSTAND IKE receives the notification in writing from the exhibitor for the cancellation of his participation at the exhibition.

-the predicted compensation of participation that would have been owed for the reserved or leased exhibition area, based on the basic rent, the additional charges for the appearance of the exhibition area and/or the standard structure as it is stated at the participation application.

TIME CHARGING PARTICIPATION OF THE EXHIBITOR	CHARGES
30 to 1 days before the exhibition starts	The registration right and the total amount of participation are withheld.
60 to 31 days before the exhibition starts	The registration right and the deposit are withheld.
61 or more days before the exhibition starts	The registration right is withheld.

The charges above stand even when the exhibitor's area is assigned to a different exhibitor. The amount to be given based on the charges above is immediately required..

ARTICLE 3 RECEIVING – MEASURING – INITIATING

3.1 In case the exhibitor asks for a change in his area from (standard structure and on-the-ground trail) to (on-the-ground trail without structure) in a time limit less than 5 days before the exhibition starts, he needs to pay the compensation for the use of the space and shall also bear the amount stated on the signed Participation Form.

3.2 Any exhibition area that was not received by the exhibitor until one day before the exhibition, is considered free and QRSTAND IKE has the right to give it to a different exhibitor. Not receiving the area by the exhibitor is considered as cancellation and to that apply the provisions of the article about Participation Cancellation.

ARTICLE 4 EXHIBITION PREPARATION – KIOSK CONSTRUCTION – DECORATIVE INSCRIPTIONS

4.1 The construction of the exhibition areas is entirely the exhibitor's obligation, either it's through QRSTAND IKE (on-the-ground trail with standard structure) or by the exhibitor himself (on-the-ground trail). For on-the-ground trail exhibition areas a necessary condition for obtaining the area is a submission of a formal declaration for the good and secure function of the construction and the electrical installations along with an electrical installation plan and a copy of electrical authorization from the competent ministry. The competent services of EXPOSYSTEM will approve those plans with the condition that the plans will be submitted in time and in a reasonable time period before the exhibitor's settling in. Non approval of the plans by the competent services of EXPOSYSTEM compels the exhibitor to adjustments or modifications indicated by QRSTAND IKE services. The constructing company is obligated to have its stuff insured during the time frame of the constructions.

4.2 The electrical facilities of the MEC come out of the ground and there might be wiring under the carpet (height 7mm) inside the exhibition kiosks.

ARTICLE 5 HANDING OVER THE AREA

5.1 After the end of the exhibition, the exhibitors must move out of the MEC whatever they had placed or constructed in the area they had used and deliver the area at the same condition it was handed over to them the latest by 12 Oct. 2020 at 21.00 p.m.
